YOUR **ONE** SOURCE
FOR ACCESS SOLUTIONS

DOORS NEED MORE THAN JUST LOCKS

ACTIVE/PASSIVE BOLLARDS

Your customers need the correct protective barriers in place to secure their high value locations. Bollards can prevent smash-and-run thefts or accidental crashes.

CPSG has the Hostile Vehicle Mitigation/Anti-Ram products and expertise to assist through the system design, quote and purchase process.

CPSG is more than the nation's largest wholesale distributor, we provide complete solutions. Contact our barrier experts for a free design consultation or to learn more about bollards.

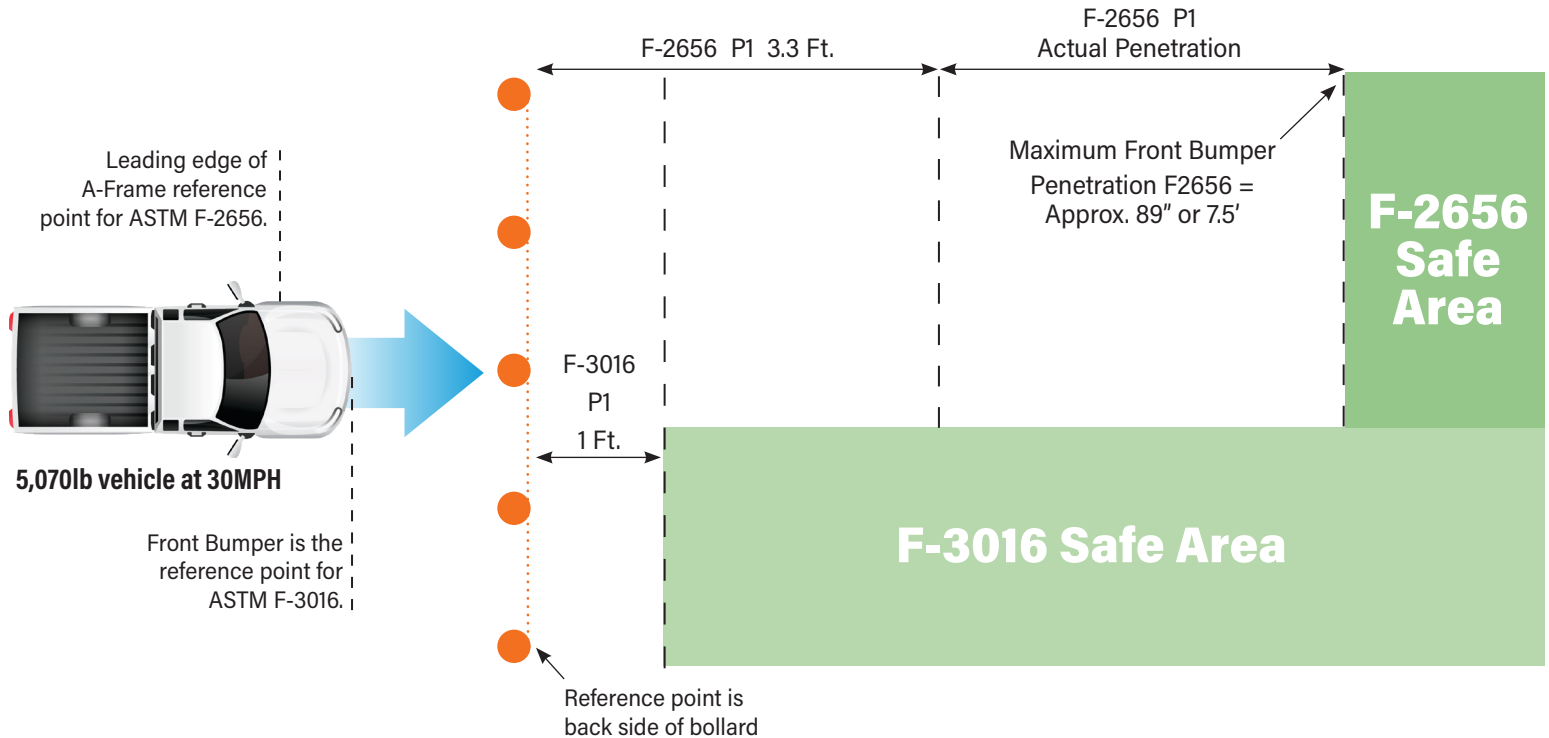

Crash Testing Standards

ASTM F-2656 and F-3016 Ratings

This depiction shows a comparison of the two test standards showing maximum penetration allowed from the front bumper of the ASTM F-3016 and ASTM F-2656 utilizing a 5,000lb vehicle at 30MPH.

Controlled Products Proudly Offers Bollards From These Manufacturers
