

# Product Bulletin

**Date:** October 6, 2022  
**Update Number:** P2022-33  
**Subject:** Discontinuation of LiftMaster® Home Bridge  
**Product Affected:** LiftMaster® Home Bridge Model 819LMBMC

As part of our continuing efforts to improve and refine our product portfolio, effective immediately LiftMaster® will be discontinuing the LiftMaster Home Bridge. This product will remain available for purchase, while supplies last.

To support our customers after the LiftMaster Home Bridge inventory is depleted, we will fulfill orders of that product with the Chamberlain Home Bridge (SKU: MYQ-G0303-SPMC). This is an identical product, with product and packaging branding the only difference. All orders of the Chamberlain Home Bridge will be shipped from our Tucson DC.

When inventory of Chamberlain Home Bridge is depleted, this product will also be discontinued. At current consumption rates, we anticipate that inventory of Home Bridge products will be available into the 2nd quarter of 2023.

Once inventory of both Home Bridge products is depleted, alternative products for myQ connectivity are the Smart Garage Control (821LMC-SMC) for Residential Garage Door Openers, and the Internet Gateway (828LMMC) for both Residential and Commercial Door Openers, and Gate Openers.

At this time, we will continue to support Apple® HomeKit® connection and functionality for Residential applications.

Thank you for your continued support of LiftMaster. If you have any questions regarding the information above, please contact your LiftMaster Sales Representative or visit us at **Support.LiftMaster.com**.
