

## New 6" AdvanceDrive Wheels

**OPERATORS:** SlideDriver™ operator models using 6" AdvanceDrive wheels

**DATE:** 09/01/2020

**SUBJECT:** New 6" aluminum AdvanceDrive wheels

### SUBJECT DESCRIPTION:

The 6" AdvanceDrive wheels used in SlideDriver models have been replaced with new wheels that do not require a metal retaining plate. The 8" AdvancedDrive and 8" XtremeDrive wheels used in some models will be updated similarly at a later date.

### IMPACT:

Simpler disassembly during maintenance.

Figures 1 and 2 (below) show the differences between old and new AdvancedDrive wheel assemblies.

### Part Numbers

Use the part numbers below to order 6" AdvanceDrive replacement kits.

To replace original aluminum wheels use:

- P/N MX002707**  
AdvanceDrive, 6" wheel/hub
- wheel hub
  - hub hardware (hex bolt, washer, clamping screw)
  - new aluminum wheel
  - lug nuts (x4)

To replace plastic wheels use:

- P/N MX4994**  
AdvanceDrive, 6" wheel
- new aluminum wheel
  - lug nuts (x4)

To procure lug nuts, use:

- P/N MX4993**  
Lug Nut, 82 Deg, 5/16-24
- lug nuts (x4)

**NOTE:** New wheels are compatible with the hubs from plastic wheels but require new nuts. If replacing older aluminum wheels they will need a kit with a new hub.
