

Dear LiftMaster Customer,

The following bulletin serves to announce a change in the LiftMaster product portfolio. We have made the decision to exit the traffic portion of our business to focus resources on the success of our core business. This includes all traffic spikes, lift and swing gates, motorized traffic systems, and related accessories.

As we begin the process of exiting the traffic business all products to be discontinued will be offered at a discount and will be available while supplies last. Once inventory is depleted, we will not produce any additional product. All purchased product will be supported through the warranty period and service parts will continue to be available until further notice.

Thank you for your continued support of LiftMaster. For more information regarding this update, please contact your LiftMaster Sales Representative or call our Technical Support Center at 800.528.2806.
