

PRODUCT BULLETIN

Date: November 30, 2020
Update Number: P2020-21
Subject: Increased Duty Cycle for the Variable Speed Front of Hood Commercial Door Operators
Product Affected: LiftMaster® VFOH

LiftMaster is excited to announce that our **Variable Speed Front of Hood Commercial Door Operator is now available with increased duty cycles (200/Day).**

This versatile operator is ideal for new installations as well as retrofit opportunities on existing rolling steel doors and grilles, wherever you need more control, less downtime and reduced maintenance. The variable frequency drive (VFD) enables the operator to have variable speed functionality. Retailers, parking facilities and warehouses can now have more control over the open/close speed and smooth start/stop of their doors. The unique floor-level design has the main controller at eye-level, allowing easy access to control the door while reading status and diagnostics via the intuitive user-friendly menu. Due to the rigorous updates to this ½ HP model, we no longer plan to offer a 1 HP option.

Model	Description	List Price Effective 5/29/2020
VFOH5011	Variable Speed Front of Hood Door Operator ½ HP; 120V 1-Phase (with 22 ft. cables standard)	\$3,875 (USD)
VFOH50211	Variable Speed Front of Hood Door Operator ½ HP; 230V 1 and 3-Phase (with 22 ft. cables standard)	\$4,015 (USD)
VFOH5045	Variable Speed Front of Hood Door Operator ½ HP; 460/575V 3-Phase (with 22 ft. cables standard)	\$5,215 (USD)

Note: Our Chain Extension Pack will be added for VFOH models for doors 14 ft. or higher (Model 002-2198-000, List Price \$40)

Benefits of these new operators:

- **200 Cycles Per Day**
- **Increases Rolling Door Hardware Life**
Adjustable, smooth start/stop operation saves wear and tear on the door
- **Reduces Time Waiting for Doors to Open/Close**
Variable frequency drive technology increases door opening speeds to 12"/second
- **myQ® Business™ Technology: Stay Connected to your Facility**
Get remote notifications and maintenance alerts, monitor and control access points with myQ Business
- **Single-Person Installation**
Wire accessories, set limits and program door speed at the floor-level controller for quick system set up
