Tuesday, June 11th • 10am - 2pm *Lunch Provided*

Wednesday, June 12th • 7:30am - 11:30pm *Lunch Provided*

At CPSG Salt Lake City

Linear PRO ACCESS™

Linear E3

Order Number EN-2A4/EN-2M4

Sensor and Optional Camera:

Motion sensor, ambient light sensor and optional HD IP camera

Backlit Color Display:

Easy to read programmable display with adjustable font size.

RFID Inside:

Option to mount a reader internally for aesthetically pleasing end result.

Easy Navigation

Stainless steel keypad with recessed illuminated blue keys. Polycarbonate home key with white illuminated backlighting.

Audio and Sound:

Digital signal processing for noise reduction and voice clarity.

Locking Mechanisms:

Postal lock and 3-point locking mechanism for added security.

Front Housing Materials:

Engineered Linear ArmorTech polycarbonate with stainless steel faceplate.

Browser-based system with embedded Linux for fast and easy remote management. No need for a PC or a server.

Easy-to-use interface with simple tone gesturing and visual cues.

Incredibly durable Linear ArmorTech polycarbonate housing stands against all elements. Light weight and RFI friendly.

Leverages existing technology investments. Compatible with 2 wire telephony options, POTS and VOIP for easy and fast installations.

eMerge

- Reliable, embedded Linux operating system
- Browser-based network appliance manageable on any browser, any O/S
- Ultra-fast and easy-to-use set up wizard
- Integrated inputs/outputs for enhanced functionality
- Modular design provides future scalability

BluePass

- Mobile Credential Cloud Management
- Reads cards, fobs and bluetooth phones
- Mobile "credits" sold via dealers

Presented by Ryan Kosterow and Paul Jones with Nortek/Linear.

Hands-on training with the Linear E3 Entry Multi-Door Telephone Entry and Access Control, the eMerge Network Based Access Control and BluePass smartphone mobile credentials.
