Comparing BD Loop Shield

BD-LS Advantages over Polyurethane Sealants:

- Faster Skin & Cure Time
- No Bubbling When Exposed to Water
- BD-LS Can Be Applied to Wet / Damp Surfaces
- Low VOC, Less Odor
- Easier Cleanup

BD-LS Advantages over Rubber / Synthetics Sealants:

- Much Lower VOC, Very Low Odor, Solvent Free
- Higher Movement Capability
- 100% Solids = No Shrinkage

BD Loop Shield

BD Loops innovative hybrid loop sealant BD Loop Shield "BD-LS" is made using one of the most advanced, high performance polymer technologies available in sealants today.

BD-LS is formulated to outperform conventional sealants as well as other hybrid sealants.

BD-LS is 100% solids, quick curing, UV and weathering resistant, easy to dispense, capable of exterior use in extreme climates, paintable, extremely low odor, VOC compliant and California proposition 65 compliant.

Major Advantages of BD-LS at a Glance:

- Quick Cure: 45 min skin time.
- Does not bubble when exposed to water.
- Can be applied to Wet / Damp surfaces.
- Flat Sealant Tip - Seal loops in 1 pass
- Long-Term Durability
- VOC & Prop 65 Compliant
